Spectrum Cable Information

The residents can call Bulk Customer Care at 833-697-7328 to set up a Spectrum account.

- They will need to provide the address and unit number. (This information is on the bulk master account. They will receive the bulk services per the contract. They can also order additional services at this time. They will receive a bill and be responsible for paying for the additional services.)***
- They can have the boxes and modem/router mailed to their unit and do a self install or they can schedule a pro tech install. There will be a \$59.99 charge for the tech install that the resident is responsible for paying.)***
- The Spectrum stores have turned into Mobile/Cell Phone oriented stores. They really don't like people going there to pick up boxes and modems. The resident can try, but they may get turned away.***
